Re: *United States et al v. Equilon Enterprises LLC*, (S.D. Tex. 2001): Certificate of Completion with respect to Consent Decree Requirements

Dear Sirs/Madams:

Pursuant to Paragraph 202(a) of the above-referenced Consent Decree entered on August 21, 2001 (Doc. No. 25) (the "Equilon CD" or the "Consent Decree") (as modified in the First, Second, and Third Addenda entered by the Court), on behalf of Shell Oil Products U.S. (fka Equilon Enterprises LLC), I am submitting this certification that Shell has completed the specified requirements of the Equilon CD. This document provides notice to the United States and the Northwest Clean Air Agency (NCAA) of the State

of Washington of Shell's intention to seek termination of the Equilon CD. To that end, Shell is providing this certification and, unless we receive written objection from any of the addressees within 120 days of receipt of this document, as provided in Paragraph 202(a), Shell will ask the Court to terminate the Equilon CD.

Pursuant to the Equilon CD, Shell assumed obligations with respect to the following four (4) refineries operated by Equilon at the time the Consent Decree was entered: Bakersfield, California; Los Angeles, California; Martinez, California; and Puget Sound, Washington.

Shell currently owns and operates the Martinez and Puget Sound refineries. This letter provides the required certification (see amended Consent Decree paragraph 202(a)) that, with respect to the Martinez and Puget Sound refineries, Shell has:

- Paid all stipulated penalties that may be due to the United States and the Northwest Clean Air Agency (as applicable);
- Installed control technology systems as specified in the Consent Decree;
- Received all permits specified in the Consent Decree;
- Delivered to the EPA the first semi-annual progress report following the conclusion of Equilon's operation for at least one year of all units in compliance with the emission limits established in the Equilon CD, all with respect to the Martinez and Puget Sound Refineries; and
- Performed all other requirements of the Consent Decree.

At this time, Shell no longer owns the Bakersfield Refinery or the Los Angeles Refinery. Big West purchased the Bakersfield Refinery in 2005, and the sale was memorialized in the Second Addendum to the Equilon CD, approved by the Court on January 19, 2006. The Los Angeles Refinery was sold to Tesoro Corporation in 2007, which transaction was memorialized in the Third Addendum to the Equilon CD, approved by the Court on February 16, 2011. This letter provides the required certification under Consent Decree paragraph 202(a) (as revised by the Third Addendum) that, with respect to the Bakersfield and Los Angeles refineries, Shell has paid all stipulated penalties sought from Shell under the Equilon CD.

Please do not hesitate to contact me or Pierre Espejo (telephone 713 241-2703) if you have any questions regarding this certification.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael P. Gallagher', is written over a large, stylized, and somewhat illegible signature that appears to be 'Pierre Espejo'.
